

**Highly Specialist Clinical Neuropsychologist / Clinical Psychologist in
Neuropsychology**

JOB DESCRIPTION

Location: Clinician home and surrounding areas (Hybrid/Remote)

Job Type: Full-time or Part-time (minimum of 3 days per week) (PAYE)

Salary: Competitive, based on experience, starting salary £65,000

Website: www.psychologia.co.uk

Overview

Psychologia is a specialist provider of neuropsychological services across the South of England. We are a small, friendly, and highly skilled team of Clinical Psychologists and Neuropsychologists dedicated to delivering high-quality, community-based neuropsychological assessment and rehabilitation.

We work with individuals affected by acquired brain injuries and related neurological conditions, including traumatic brain injury (TBI), stroke, functional neurological disorder (FND), and epilepsy.

Our work is collaborative, often integrated within bespoke multidisciplinary rehabilitation teams, supporting clients in their recovery and reintegration into everyday life.

We are now seeking to recruit a Highly Specialist Clinical Neuropsychologist/Clinical Psychologist in Neuropsychology.

This Role is Ideal for:

We are looking for a clinician who is eager to grow within an 8A role. This position is designed to offer a clear pathway for advancement, providing a supportive environment for those ready to take the next step in their career.

We warmly welcome expressions of interest from:

- **Current Band 7 Clinicians** with significant experience in neuropsychology and neurorehabilitation who are ready to transition into a more senior, specialist role.
- **Existing Band 8A Clinicians** looking to deepen their expertise within a specialist independent practice.

Key Responsibilities

- Conduct neuropsychological and cognitive assessments
- Deliver evidence-based psychological therapies
- Produce high-quality assessment and progress reports
- Design and evaluate innovative, client-centred interventions
- Work collaboratively within multidisciplinary teams
- Contribute to service development and the supervision of junior team members.

What We Offer

- Flexible working

- Hybrid model with remote, home-based, community, and clinic-based work

Generous Benefits:

- Private medical insurance
- Paid travel time and full mileage reimbursement
- 30 days annual leave plus bank holidays (pro rata) and additional leave over the Christmas period
- Enhanced maternity leave
- NEST pension

Professional Development:

- Regular clinical supervision and access to ad-hoc clinical supervision on a day-to-day basis
- Support and study leave for PGDip in Clinical Neuropsychology and/or QiCN
- Opportunities to present at conferences and contribute to teaching

Career Progression:

- Clear pathways for advancement including annual appraisal

Location & Travel

This role is based remotely, with travel to client homes, communities, or local clinics as needed.

Travel time is included in your working hours, and all travel expenses are reimbursed.

About You

We're looking for someone who is:

- HCPC-registered as a Clinical Psychologist
- Experience in neuropsychological assessment and rehabilitation
- Skilled in working with clients with acquired brain injuries and related conditions
- Passionate about innovation, collaboration, and client-centred care

How to Apply

We invite informal expressions of interest and are happy to discuss the role informally.

We would also welcome your CV and a formal expression of interest via email.

Please contact our Clinical Director at Enquiries@Psychologia.co.uk
